

GOLCONDA HAS A FUTURE

Rich Deposits of Copper.

A Nevada Village That Is Neither Dead nor Sleeping.

Only recently, a Trans-Mississippi Congress was held in Cripple Creek. Large delegations were there from all the eastern States. We read how progressive Utah, active Colorado and California, always ready to grasp an opportunity, and Oregon, sturdy and conservative, had large delegations present. Where was Nevada on the deal? Who heard of Nevada there?

In Boise City this week is a mining Congress. Nevada is a great mining State. She ought to be represented. But who will hear of Nevada in the Mining Congress?

These great commercial bodies mean much for western development and I again state that Nevada in her undeveloped resources is as great as any of the western States. At these gatherings are found capitalists and progressive business men but Nevada never makes a showing.

The trouble is that the men who ought to go and can afford to go are too busy doing politics in Nevada from a selfish standpoint to attend these representative gatherings.

Who ever heard of a mining congress being held in Nevada? Who ever heard of the Trans-Mississippi Congress being mentioned in Reno? Have we ever had an irrigation congress in Nevada?

Some people wonder why Nevada is not a great state in population. She is great in resources—so all in population, weak in State pride, poverty stricken when it comes to public spirited men.

Now here is Golconda, a natural center, rich in mines, rich in agriculture, the center of a great stock country.

Few people in the State realize these facts and until we ourselves have faith the outside cannot have faith.

Golconda needs capital—capital for her mines rich and large, for her copper zone for her gold belt. Golconda needs capital for a storage reservoir which will throw open 100,000 acres of fertile land.

Capital, faith, confidence and men are needed. Golconda sleeps on her riches.

Golconda and her riches may yet occupy in Nevada's history a page of note. Just now she is not a part of a suburban summer resort. Golconda has immensely attractive features in the way of a large commodious hotel with verandas, amid a grove of shade trees with hollyhocks as high as your head. Artesian springs, artesian wells, hot springs and mud springs and hot water in pipes all over the grounds.

A few years ago Golconda was a much advertised town. The Adelaide Company Limited, a great four hundred thousand dollar enterprise, built a railroad 14 miles in length, erected large steam hoists on their mine and in fact invested one-half million dollars.

The works are idle now while the stockholders are adjusting affairs. Only yesterday Mr. Joe Kallen, the veteran mining man of Nevada, with a number of English experts and capitalists, visited the mine and works.

A deal of importance is rumored. Notwithstanding the fact that the mine and mill have been closed for some time, it is true that the Adelaide is one of the large copper properties of the west and will at no distant day bring this town into prominence.

Eighteen miles north of town of Golconda are situated the Granite Creek copper mines, now being developed by Chicago capital.

These mines, of which there is a large group, are giving great promise and a smelter at Iron Point is one of the near possibilities.

Not far from the Adelaide are the rich placers of Gold Run, which yearly produce plenty of gold dust.

Another group of copper mines are being worked just east of the Adelaide property.

Golconda has all the natural environ-

ments of a great town. For years it has been a great stock trading point. The Golconda Cattle Company, the Bliss property, the Fairlawn Ranchers, the Nobles and Anderson have made it their headquarters. These places are among the largest in Nevada, having large herds and vast tracts of land under enclosure.

To the south of Golconda rises a large range of mountains which terminates in a series of peaks, snow covered most of the year.

High up in a basin at a cost of \$113,000 Mr. Duterlin demonstrated some of the possibilities of water storage by putting in an immense dam, forming two natural lakes. By means of these lakes a supply of water is reserved for the second crop and his several thousand acres of alfalfa and grain land is a sure producer each year.

Golconda with money could be made a famous sanitarium. Naturally healthy with a fine supply of pure water, there are a large number of mineral and mud springs, the medicinal values of which are wonderful. Strange and unexpected cures are wrought upon the rheumatic afflicted.

As a commercial center, Golconda has numerous advantages. It is said to be a non-contemplated project to extend the Adelaide railroad to Kennedy and her miles and be easy and well adapted to take in the Cottonwood valley of Churchill county.

It is the same old story in Nevada. The town of Golconda, "timid capital," sits there, yet the mines are here and under the new life and activity, which seem to be becoming epidemic in Nevada Golconda is going to be in the front rank as a mining town. There is not a prettier nor more desirable town in the State of Nevada in which to live. It has every natural advantage of climate and water. It is the natural stock center of the Humboldt Valley and is tributary to a wonderful and richly mineralized copper belt or zone.

The railroad is now making many needed improvements and business men are hopeful of the future.

Faith and capital are all that we need. We have the resources.

The Golconda Hotel, situated near the track of the main line was a few years ago the best paying hotel in the State and still does a large business for pleasure seekers.

Golconda is not dead, neither is she sleeping. She has not been worked, neither is she "has been." She is a capital and Scottish Company has contemplated an increase in the smelter and an extensive development of the mine, and this one company alone will employ 300 men when it opens up.

Keep your eye on Golconda. She is going to be along with Ely, Yerington and Tonopah, one of the famous quartette of Nevada mining camps.

Interview With Delamar's Man.

H. A. Cohen was in Reno last night a guest at the Riverside. He came from Esmeralda county where he was expanding mining properties for Captain Delamar, for whom he is business manager.

Mr. Cohen has his eye on this section of Nevada, having made a number of trips here, on one of which he was accompanied by the Captain.

He denied the authenticity of an interview in the Salt Lake Tribune, which appears elsewhere in this paper, respecting the Delamar mine in the eastern part of this State.

He says that while the rich ore in the old chute has been exhausted, there has recently been another large and valuable ore body uncovered in the mine which will keep the big mill running for a number of years.

ODD FELLOWS ATTENTION.

Members of Reno Lodge, No. 14, I. O. O. F., and all sojourning Brothers are requested to assemble at New Investment Building Hall, at 2 p. m., Thursday, August 1st, to attend the funeral of our late Brother, R. S. Osburn.

By order of the Noble Grand, W. F. SEDGWICK, Secretary.

THE PRESENT MINING LAW

Something That Should Be Read by Prospectors.

Chap. XCIII.—An Act to amend section one of an Act entitled, "An Act amendatory of and supplemental to location, manner of recording lode and placer claims, mill sites, tunnel rights, amount of work necessary to hold possession of mining claims and the rights of co-owners therein, approved March 18, 1897," approved March 14, 1899, approved March 20, 1901.

Section 1. Section one of the above entitled Act is hereby amended so as to read as follows:

Section 2. Before the expiration of ninety days from the time of posting notice upon the claim the locator must sink a discovery shaft upon the claim located to the depth of at least ten feet from the level of the surface, or deeper if necessary to show by such work a ledge or deposit of mineral in place. A cut or crosscut, or tunnel, which cuts the lode at a depth of ten feet, or an open cut along the ledge or lode equivalent in size to a shaft four feet by six feet by ten feet deep is equivalent to a discovery shaft. The locator must define the boundaries of his claim by marking a tree or rock in place, or by setting a post or stone, one at each corner and one at the center of each side.

When a post is used it must be at least four inches square by four feet six inches in length, set one foot in the ground with a mound of stone or earth four feet in diameter by two feet in height around the post. When it is practically impossible on account of bedrock or precipitous ground to sink such posts they may be placed in a pile of stones, or where the proper placing of such posts or monuments of stone is impracticable or dangerous to life and limb it shall be lawful to place such post or monument of stone at the nearest point, properly marked to designate its right place. When a stone is used, not a rock in place, it must be at least six inches square and eighteen inches in length, set two-thirds of its length in the ground, which trees, stumps or monuments must be so marked as to designate the corners of the claim located.

Section 2. This Act shall take effect on the first day of July, 1901.

Olinghouse "Dispatches."

The Olinghouse was up at the Fortuna mine yesterday. The shaft is down about 115 feet with high grade ore from top to bottom between good walls and in a strong formation. The future of the property is assured.

A ledge has been cut in the tunnel of the claim next to the Williams bonanza that makes the Short boys smile. The tunnel is in 150 feet and the ledge pokes out shows eight inches of \$50 to \$70 ore. Sinking a few feet on it shows it is widening out. The boys have been working a long time without much encouragement and started to crosscut the entire width of the claim when they made the strike. We hope they will realize the bunch of money their efforts merit.

FREE MILLING ORE AT PYRAMID LAKE

Chas. A. Norcross is in from Pyramid. He reports good progress being made by his company which has purchased the Excelsior claim, sometimes known as the Norton mine. A shaft has been sunk 70 feet at the bottom of which the ledge was crosscut. A drift is now being run in ore. The ledge is 14 feet wide and assays about \$17, chiefly in free milling gold.

About 140 tons of ore are on the dump. There are six men employed. A hoist has lately been installed. The company is composed of New York, Washington and Reno capitalists.

NEWS OF THE DAY

Telegraphed from All Quarters.

KILLED AT FLORISTON

Strike Reports—Vessels Wrecked—Train Robbery—A Nevada Storm.

Alaska Steamer Sunk.

PORT TOWNSEND, July 31.—The steamer Senator, which arrived tonight, brings the news that the steamer Charles D. Lane of San Francisco, had struck on a rock near Nunavak Island, Alaska, and sank. She carried one hundred and seventy-five passengers, all of whom, with the crew, succeeded in reaching land safely. It is believed the steamer and cargo are a total loss.

Killed by the Cars.

FLORISTON, July 31.—Joseph Schwind, an electrician employed by the Floriston Pulp and Paper Company, met a terrible death here this afternoon about 4:30. He attempted to cross the railroad track between two cars, which came together, crushing him to death and horribly mangle him. He was dragged about 40 feet.

Strike May Be Settled.

SAN FRANCISCO, July 31.—Both sides are getting very weary of the prolonged strike and the disturbed business conditions and a settlement seems likely very soon. Mayor Phelan is working hard to bring about a satisfactory adjustment of the trouble. The only difficulty at present is over the reinstatement of the teamsters.

Train Robbers Foiled.

CHICAGO, July 31.—Five masked men held up the B. & O. express train near Grand Calumet, Ind., tonight. The bandits blew open the two mail cars, but failed to find the express car and gave up in disgust.

Battleship Runs Aground.

HONG KONG, July 31.—The first-class British battleship Glory, 13,500 tons, is reported ashore on the Chinese coast. Two cruisers have gone to her assistance.

Damaged by a Storm.

EUREKA, July 31.—A terrific lightning and wind storm struck this town today. Considerable damage was done.

Strike Conference Continued.

PITTSBURG, July 31.—An attempt to end the steel strike today failed but conference will be resumed tomorrow.

TERSE AND TO THE POINT

Little Bits of Items, but Still Worthy of Mention.

The interior of the Southern Pacific depot is being remodeled.

O. Murphy of this city has sold a flock of lambs to Truckee butchers.

The Knights of Pythias were tendered a banquet Tuesday evening at the French Hotel.

Wells Drury, formerly of this city, has accepted a position on the Sacramento Record-Union.

J. J. Quinn is on the road to recovery after a serious operation performed for cancer of the tongue.

Savage is agent for a few of the best stoves and ranges. Call and have your eyes for a few of the best stoves and ranges. Call and have your eyes for a few of the best stoves and ranges. Call and have your eyes for a few of the best stoves and ranges.

PRIDE WINS MANY EYES.

Why do so many complain of their eyes, simply because they need glasses? In many cases pride keeps one from wearing them. Let pride go and save your eyes by going to Golden's jewelry store where you will find the only graduate optician in the State.

CHEAP ROUND TRIP RATES

Inducements to Home-seekers Given by the N.C.O.

Traffic Manager Bennett of the N.C.O. Railway has received a circular from Jas. Charlton, Chairman of the Trans-Continental Passenger Association, announcing additional home seekers' excursion to California. The dates of sale at all points East of Salt Lake City will be: August 6th and 20, 1901, September 3d and 17, 1901. Going transit limit, 15 days from date of sale. Extreme limit of ticket, 21 days from date of sale. The N.C.O. Railway will sell to holders of such excursion tickets special round trip tickets from Reno limited to same dates as the original excursion tickets as follows: Reno to Piamas Junction and return, \$2; Reno to Amodeo and return, \$4; Reno to Armstrong and return, \$8; Reno to Terro and return, \$8 and this information has been furnished to all ticket agents who will sell Home Seekers' Excursion Tickets on the dates above mentioned.

Every purchaser of a home seekers' excursion ticket to California will be applied of the action of the N.C.O. Railway, and this in itself will add materially to attracting attention to Piamas, Lassen and Modoc counties.

The N.C.O. Railway is apparently taking advantage of every opportunity to attract the attention of people in the middle and eastern states to the undeveloped resources of Western Nevada and eastern California, and it all the inhabitants of this section of the country will take enough interest in advancing the claims of their particular counties to advantages offered to home seekers, results will be obtained in the next two years that will astonish the most optimistic of our inhabitants.

LATE TONOPAH HAPPENINGS

What the Bonanza Says About This New Camp.

A little girl leaving Eureka, Nevada, for this camp knelt down by her bedside and prayed: "Good-bye, God, we're going to Tonopah, this is the last we ever expect to hear of you, dear God."

Tonopah is becoming metropolitan and its commercial interests have increased so rapidly that a local bank became a necessity. The firm of Turner, Edwards & Cutting have instituted a bank here and will transact a general banking business. H. C. Cutting is cashier, O. A. Turner president and B. F. Edwards, vice-president.

Tonopah has a population of 650, about 15 people arrive daily. The postoffice name of Butler will be changed to Tonopah very shortly. If Jim Butler had desired this place to be named Butler he would have named the district Butler Mining District. Tonopah is the prettiest town name known today.

Brown & Cutting have drifted into a chute of magnificent ore at a depth of 120 feet below the surface. They have next to the deepest shaft in the camp, and the first whim in operation, and altogether are up-to-date and successful in their mining operations.

In Memory of the Olden Days.

The Journal's article concerning the removal of Mrs. Sandy Bowers to the poor house was republished by the Bonanza. That paper adds:

Reno people should have never allowed this. Pride and respect for the poor old emaciated form that had in days of prosperity showered hospitality upon all. When old age finds the good lady penniless and unable to care for herself she is sent to the poor

SOCIETY WEDS TO WEALTH

Two Ceremonies Required.

Marital Contracts, Both Religious and Civil.

A double wedding occurred in Reno yesterday. This circumstance alone is enough to justify the large head used over this item, but when the fact becomes known that the double wedding consisted in one couple getting married twice the plot thickens. Furthermore, the prominence of the contracting parties is another matter of interest.

Yesterday morning they arrived, without blare of trumpets, conscious only of the love each bore for the other. They came, not because Reno is a greenish green for people who cannot be legally married in California, but simply for one of those freakish notions that strike young people who over estimate the world-interest that attaches to the civil contract that makes them man and wife.

Do you ask the bride's name? Pardon the omission. She is, or was, Miss A. Prohn of the city by the Golden Gate. Her name you have frequently seen in the society columns.

They were issued a license at 10 o'clock yesterday morning by Acting County Clerk Julien. Two hours later, at "High Noon," they were married at the Riverside Hotel by His Honor Justice Linn. Of course George Cheek was one of the witnesses. Mrs. Greenwood assisted him in this capacity.

The groom is an awful nice fellow and the bride is simply perfect. She was the belle of San Francisco last season and was this year one of the reigning beauties of the western metropolis. Furthermore she is just as nice as she is pretty and the room is well repaid for his long trip from the east and any further expense that matrimony may bring to him.

The groom is worthy of his prize, if one may judge from a brief glimpse. In the first place he is a rather handsome fellow. His name is F. Ernest Cramer and he is vice-president of the G. Cramer Dry Paint Company of St. Louis. Every professional and amateur photographer in the United States knows that this is a big concern and that the vice-president of it must have all sorts of rocks.

These young people loved each other too hard to be satisfied with one wedding. They enjoyed it so much that they demanded another. The second fee was earned by Rev. Dr. Phelps, who re-married them at the Methodist parsonage just as the clock struck 8 last evening. The bride and groom would have preferred to have remained in Reno until this morning, because they like the town, but business called them away. They left on the midnight train for Montevideo, where they will register at the Del Monte Hotel for a season and will afterwards repair to their happy home in "Ole Missouri."

The Journal hopes that they will always be as happy as they appeared to be yesterday and that it will take at least two divorces to dissolve the double wedding between the two hearts that now beat as one, but beat pretty fast.

THE CUTOFF WILL SOON BE BUILT

It is reliably reported that work upon the cut-off between Reno and the head of the canyon will begin within the next week or ten days.

The contract has been awarded to Messrs. Peterson & Erickson. They spent a couple of days this week in Reno looking over the ground. It is known that a quantity of sand, gravel and other material has been ordered. Several hundred men will be employed two weeks on this job.

SPECIAL THIS WEEK.

Alarm clocks, guaranteed for one year for 95 cents at Frank Golden's jewelry store, corner Second and Virginia streets.

James Flanagan and M. T. Groton returned last evening from a visit to Truckee.

Tom Harney has gone to Tonopah.

J. W. Parsons is a visitor from Auburn, Cal.

Mr. and Mrs. Stevens, Miss Stevens and Mrs. G. H. Haydon have gone to Lake Tahoe.

Mr. and Mrs. Seth Taylor returned yesterday from Gold Run where they paid an extensive visit.

Fred Berry of Santa Rosa and Grant Watkins of San Francisco were arrivals in Reno last evening.

Mrs. A. C. Gee has returned to Greenville after a visit with Mr. and Mrs. E. W. Taylor in this city.

CHANGE IN THE MAKE-UP.

WE CALL the attention of our readers and patrons to the change in the make-up and general appearance of The Journal columns this morning. The standing advertisements have been reset in new and latest style of types; there is news and other reading matter on every page and other improvements made which will be noticeable to all of the readers of the paper. It is the intention of the management to give The Journal patrons as good service as can be had in any paper of its size and class on the Pacific Coast. While the make-up is up-to-date, it is not intended to stop at that, but to add other improvements in all of the departments as they suggest themselves and the business of the paper will admit. The experience of the first month is encouraging and satisfactory to the new management, which hopes to meet such further favor as to enable it to present as handsome a newspaper and as well filled with attractive reading matter as will compare favorably with more pretentious sheets and with larger and perhaps more fertile fields of operation.

WHOLLY A REPUBLICAN SCHEME.

IT IS evident that the Republicans in Ohio are playing a familiar game which does not indicate that confidence in results of which they boast at the November election. A year ago they bent their energies to organize a bolt of the gold people from the Democratic National ticket. Now it is the silver side they are operating upon, proclaiming that they will run independent candidates because silver was not proclaimed in the State platform. The Newark Daily Advocate, a staunch bimetalist paper, says it is receiving every day or two dispatches announcing the progress of the movement, but a close scrutiny shows the reports to be mere fabrications, wind work, and that everything indicates that the entire business is the work of the hirelings of Hanna and in the interest of the Republican State, congressional and legislative tickets. The Advocate mentions especially one C. A. Groot, who is particularly active in the "bolting" movement and who wrote a letter to Mr. Bryan hoping to receive that great Commoner's approval of his action, but in this he was disappointed. Mr. Bryan in no uncertain language informs the bolters that they can expect no sympathy from him. While not pleased with the non-endorsement of the Kansas City platform by Ohio Democrats, Mr. Bryan emphatically sets his seal of disapproval upon any move calculated to do possible harm to the Democratic ticket as nominated. The letter of Mr. Bryan came as an answer to the letter written to him by Groot.

But notwithstanding this letter of disapproval from Mr. Bryan, plainly condemning the bolting movement, Groot has not changed his purpose. He says: "We shall go right along with our arrangements for the so-called bolt convention to be held at Columbus on July 31st."

This shows plainly and without the shadow of doubt that the creature Groot is simply a Hanna hireling, and as the fellow is the recognized leader of the so-called bolting movement, that Republican hands are working the wires and that Republican money is the chief incentive to action. But it will prove a dismal failure. While at least ninety per cent of the Ohio Democracy are silver men, they also believe in the other cardinal principles of the party, and cannot be fooled by any such shallow device into playing into the hands of the party of trusts, imperialism, general plunder and spoilation.

The Advocate emphatically declares that the Ohio Democracy was never more solidly united than in the present campaign, while there is bitterness and dissension between the Hanna and Foraker followers which will endanger their legislative districts and lose them thousands of votes on their State ticket.

OFFICIAL PRAYER ORDERING.

THE continuous hot spell which has prevailed throughout the country has caused much suffering, and much damage has been done to the crops in the great agricultural section of the Middle West. The heated term commenced at a critical time with these crops, when the grain was forming and about to form; at a time when sufficient moisture meant the development of a heavy yield in grain, the only commercial part of the plant, and its entire lack likewise meaning a complete failure. Of course the farmers of that section and those whose welfare is in their prosperity, were anxious for copious rains in time to save the crops. Doubtless the weather reports were eagerly scanned for some favorable indications and the sky anxiously watched for the appearance of clouds that the weather observers had failed to foretell.

But it would be interesting to know what authority or justification the Governor of a State claimed for the issuance of a proclamation setting apart a day for prayer to the Great Father and Ruler of the Universe, that rain might be speedily sent. If it was that it might partially divert the anxiety of the people, too long exercised in the same direction, and under a wearing tension, that is one thing. If it was that it was a religious duty and privilege, the

logic is bad. The belief that Providence is omnipotent and can send or withhold rain at will, also comprehends that He is all wise and knows the needs and what is good for His people wherever located. These concerted and officially proclaimed occasions for a specific purpose, implies that our Heavenly Father was negligent of His duty and forgetful of His people and needed to be emphatically prompted to correct an injury that was becoming serious through His neglect. It was a peculiar incident with which to start off the 20th century with all of its pretensions for advanced thinking and rational action. It was part and parcel of the original "Fast day," which is still kept up in some of the New England States, and which is supposed to be set apart for "fasting and prayer," but which in these latter days is nothing more or less than a legal holiday with no particular significance, and no solemnity at all. We sincerely believe that a prayerful spirit finds favor with the Lord, but question the right of gubernatorial dictation as to the time or subject of the invocation.

PUNISHMENT FOR WIFE BEATERS.

IN speaking of a tar and feathering affair in West Chicago, the Record-Herald says: "If there is anything in the theory of 'making the punishment fit the crime,' a coat of red stripes would be more becoming to a wife beater than a coat of tar and feathers. Treatment of this character could hardly be regarded as adequate punishment for the revolting brutality of beating a woman and that woman the brute's wife."

That, of course, means recourse to the whipping post for punishment of offenders of that character. Such a law was enacted in this State in the early seventies, but proved a complete failure. Although there were a few convictions and sentences under it, no officer could be found who would inflict the penalty, and so the brutal scoundrels escaped punishment of any kind whatever.

While it is to be admitted that twenty or thirty lashes "well laid on" is meet punishment for that kind of cattle, the infliction of it would give to any man fit to be entrusted with public office, as great if not greater pain than the physical suffering experienced by the offender himself. Humiliation would only be experienced by the executor of the law, for the wretch under the lash, barren and incapable of such sentiment, would laugh at the "weakness" of the person who possessed it. There should be a special law in every State for the offense of wife beating, which generally comes under the head of an ordinary assault, the extreme penalty for which is by no means proportionate with the nature of the offense or the deserts of the offender. A few months solitary confinement with a menu composed of the staff of life and nature's beverage, would perhaps have a salutary effect in such cases while the penalty would extend only to the brutal and cowardly violator of Divine and human law, and not to the executive representative of the latter.

THE Lyon County Times has removed from Dayton to Yerington. May the Times' change of location prove a profitable one and may it prove equally beneficial to the habitants of Pizen Switch—as it doubtless will.

WE have a federal constitution and a national flag, but the latter appears to have a roving commission and to have wandered to places not contemplated by Messrs. Jefferson & Co. the constructors of the former. Hence, doubtless, the laggardness of the consti and its inability to keep up with the flag-stitution.

WHILE our Republican friends manifest their eagerness to advise the Democratic and Silver parties who to bring out for United States Senator, they don't appear to have any candidate of their own. Perhaps it is well enough that they haven't, and further, perhaps it is natural and proper that, as a small portion of the people to be represented, they should have and express their choice as to whom the majority element should select. Minorities have their rights as well as other folks and The Journal would be the last to deny or abridge them.

PRESS COMMENT.

Many thirsts of long standing will be satiated during the thirty days that Aunt Carrie Nation is in jail.—Grass Valley Union.

The stability of the country's boasted prosperity is well measured by the panic aroused at the thought of a total crop failure.—Commoner.

It certainly seems proper that nine hours of toil in such an arduous craft as that of the machinist should enable an American laborer to earn a competent living.—Baltimore Herald.

Isn't it possible that some part of the general rise in prices during the last year or two was due to the cutting off of the Transvaal gold supply, amounting to one-third of the world's output.—Utah State Journal.

Samson slew a thousand Philistines with an unnameable weapon. It seems that Jeffries and Rubin are determined to use nothing but the same kind of weapons in fighting their proposed battle.—Grass Valley Union.

Now a minister has announced that the illness in Shafter's army before Santiago was due to unlimited floods of beer. Good Heavens! doesn't the man know that beer was \$5 a bottle and none to be had at that, at Santiago.—Utah State Journal.

Secretary Long has issued an order enjoining naval officers from making statements concerning the Schley court of inquiry. Wonder if Admiral Sampson will understand that his backbiting tongue comes within the restrictions of the order.—Silver State.

LEGAL ADVERTISEMENTS

BIDS WANTED.

For the Building of a Chemical Laboratory and a Hospital on the grounds of the State University.

The Board of Regents of the State University will receive sealed bids for the construction of a chemical laboratory and a hospital on the grounds of the State University, according to the plans and specifications on file in the office of the Board of Regents, the buildings being described as follows:

1. A chemical and physical laboratory as authorized by the Act of the Legislature, Statutes of Nevada, 1901, page 52.

2. A hospital for students, as authorized by the Act of the Legislature, Statutes of Nevada, 1901, page 80.

The bids for the chemical laboratory shall include all plumbing, electrical wiring and steam heating. Contractors are requested to make offers for a Laboratory building entirely of stone from the walls of the old State Prison near Reno, except the cross walls, which are to be of brick, and also for a hospital building entirely of brick, except the foundation, which must be of suitable stone. In either case, all the material, where suitable, may be taken from the prison walls by the successful bidder.

The bids for the hospital shall include all plumbing and electrical wiring. Contractors are requested to make offers for a hospital building entirely of stone from the walls of the old State Prison near Reno, except the cross walls, which are to be of brick, and also for a hospital building entirely of brick, except the foundation, which must be of suitable stone. In either case, all the material, where suitable, may be taken from the prison walls by the successful bidder.

The attention of bidders is particularly called to the changes made in the plans and specifications on file. Contractors may use any and all material suitable for foundations of either or both of said buildings from the old prison wall.

The bids shall be filed with the Secretary of the Board at or before 10 a. m.

SATURDAY, AUGUST 10, 1901,

at which time the bids shall be opened. Each bid to be accompanied by a certified check for the sum of \$500, payable to the order of the Board as a guarantee that the successful bidder will enter into a contract in accordance with bid.

The Board reserves the right to reject any and all bids.

By order of the Board of Regents.

GEORGE H. TAYLOR, Secretary.

Reno, Nevada, July 28, 1901.

PROPOSALS FOR STREET WORK

Office of the Board of County Commissioners of Washoe County, Nevada, acting for the benefit of the Town of Reno, Nevada, July 29, 1901.

Sealed proposals will be received at the office of the said Board of County Commissioners, acting for the benefit of the Town of Reno, Nevada, addressed to the Clerk of said Board at Reno, Nevada, between the hours of 10 a. m. and 12 m., of Tuesday, the 30th day of August, 1901, for doing the following street work, including the furnishing of the necessary material therefor, or by the said Board of County Commissioners of Washoe County, Nevada, acting for the benefit of the Town of Reno, Nevada, at their regular meeting held at their office on said day and on the 18th day of July, 1901, to be done in said Town and County, under the direction and to the satisfaction of said Board of County Commissioners, acting for the benefit of the Town of Reno, Nevada.

To-wit: That Commercial Row in said Town, between the easterly line of Center street and the westerly line of Sierra street, and between the easterly line of the Central Pacific Railroad along the northerly line of said street, and the curb line along the southerly line of said street, and to the property line at all intersections and crossings along said street be graded and paved. (The furnishing of the stone curbing for said work to be contracted under separate bids.)

Said work must be done in accordance with the plans and specifications therefor now on file with the Clerk of said Board of County Commissioners to which reference is hereby made for full and complete details and description of said work and materials, and must be commenced within fifteen (15) days from the letting of the contract and entering into therefor, and must be completed on or before the 30th day of November, A. D., 1901.

The Board reserves the right to reject any and all bids. The amount of bond to be given for the faithful performance of the contract will be fixed at the time of entering into of the same and will not be for a less sum than (\$5000) five thousand dollars. All proposals offered shall be accompanied by a check, certified by some responsible bank, payable to the order of the Clerk of the Board of County Commissioners of Washoe County, Nevada, for the sum of One Thousand (\$1000) dollars, as to be held by the Board of County Commissioners, and will be received or considered unless accompanied by such check.

By order of the Board of County Commissioners of Washoe County Nevada, acting for the benefit of the Town of Reno.

W. A. FOGG, Clerk of the Board.

W. H. A. PIKE, District Attorney.

TOWN ORDINANCE.

[Adopted July 18, 1901.]

Whereas, it appears to the satisfaction of this Board that notice of the hearing of the petition of T. K. Stewart, and others for the grading and paving of Commercial Row from Center to Sierra street; Virginia street from Commercial Row to the Iron Bridge over the Truckee River, and Second street from Virginia to Sierra street in the Town of Reno, and the adoption of plans and specifications by publication as required by the order of this Board.

And whereas said matter coming on to be heard at the time mentioned in said notice, parties interested therein appeared and the proof and evidence that said plans and specifications are available and proper, it is ordered that said plans and specifications for the grading and paving of said portions of said streets be and the same are adopted as now on file with the Clerk of the Board, except as to the curbing and that the same be recorded.

And whereas it further appears that it is advisable and to the public interest and benefit, that Commercial Row from Center street to Sierra street in said town be graded and paved according to said plans and specifications, and that the same be recorded.

It is ordered that the last above mentioned portion of said street be graded and paved according to the plans and specifications as now adopted. That thirty days notice of the letting of contracts to grade and pave said portions of said streets according to said plans and specifications be given by advertisement in the Reno Journal, a newspaper published at Reno, Nevada, that such contract will be let to the lowest responsible bidder who will give satisfactory guarantee to keep the same in repair five years subject to the right of any property owner fronting on said street to make said improvement and specifications in front of his property by private contract to be approved by this Board.

It is further ordered that the cost of grading and paving that portion of

BIDS WANTED.

said streets fronting and abutting upon said property be paid by the owners of the abutting property according to the number of feet fronting or abutting on said improvement, and that the cost thereof be assessed accordingly against said property, and the tax and lien thereon, and that the cost of grading and paving all street and alley crossings and intersections included within that portion of said streets hereby ordered to be graded and paved, be paid by and out of the public funds.

By order of the Board of County Commissioners acting for the benefit of the Town of Reno.

W. A. FOGG, Clerk.

W. H. A. PIKE, District Atty.

DISSOLUTION NOTICE.

The co-partnership heretofore existing under the name and style of Morrell & Werner, in the town of Reno, county of Washoe, State of Nevada, is dissolved by mutual consent, and all debts due said firm are payable to said Herman Werner at his place of business, over T. K. Foyers' Livery Stable, on Sierra street, Reno, Nevada.

Dated at Reno, Nev., July 30, 1901.

H. A. MORRELL,

HERMAN WERNER.
